

Recommended QCSD Elementary Supply List

2020 - 2021 School Year

We are providing this list of recommended supplies to help families prepare for the upcoming school year. To comply with our district's Health and Safety plan, students will not share materials. Additionally, our district is providing PPE for students, however, many families want their own hand sanitizer and wipes for their students. That is why you will see some of those items on the list below. The district is providing sanitizer and we will have masks for students who forget them.

We recognize that virtual only students may have different needs, and families will need to make decisions to set up their child's work environment for success.

*Items below marked with an asterisk are recommended for students who are learning virtually. There will be scheduled times for parents to pick up additional school materials for virtual only students.
